PROFESSIONAL SUMMARY

Enthusiastic and results-driven **AI/ML Engineer & Full-Stack Developer** with strong specialization in Data Science, Machine Learning pipelines, and modern web architectures. Information Technology undergraduate (Class of 2028) at ISL Engineering College. Awarded the **Certificate of Excellence** in Data Science Specialization from Full Stack Academy Center of Excellence and completed a 10-week **Google AI-ML Virtual Internship with Grade O (Outstanding)** supported by AICTE & EduSkills. Proven track record of developing autonomous LLM agents, security threat intelligence tools, and scalable web platforms. Active national hackathon competitor across Smart India Hackathon (SIH 2024) and E-Cell IIT Bombay Eureka! Challenge.

TECHNICAL SKILLS

Languages:	Python, TypeScript, JavaScript, SQL, HTML5, CSS3
AI / Machine Learning:	PyTorch, TensorFlow, Scikit-Learn, Pandas, NumPy, LangChain, LLMs, Prompt Engineering, Exploratory Data Analysis (EDA)
Web & Frameworks:	React.js, Next.js, FastAPI, Node.js, Tailwind CSS, RESTful APIs, Responsive UI/UX
Databases & Tools:	PostgreSQL, MongoDB, MySQL, Vercel, Supabase, Git, GitHub, Docker, Power BI
Core Competencies:	Autonomous AI Agents, ML Pipelines, Real-Time Web Apps, Security Analytics, Agile Team Collaboration

EXPERIENCE & SPECIALIZED TRAINING

Google Virtual Intern — AI/ML Oct 2024 – Dec 2024
[Google for Developers \(India Edu Program\)](#) • [AICTE & EduSkills](#)

- Completed a rigorous 10-week curriculum in machine learning algorithms, deep neural network architectures, and data engineering, graduating with **Grade O (Outstanding)**.
- Engineered, evaluated, and fine-tuned predictive ML models using Python, TensorFlow, and Scikit-Learn across diverse real-world datasets.
- Implemented computer vision and natural language processing pipelines, performing hyperparameter tuning to optimize cross-validation accuracy.

Data Science Specialization Trainee Oct 2025 – Jan 2026
[Full Stack Academy Center of Excellence](#) • [Hyderabad, India](#)

- Awarded the **Certificate of Excellence** for mastering end-to-end data science pipelines, statistical hypothesis testing, and machine learning deployment.
- Constructed automated data cleaning, exploratory data analysis (EDA), and multivariate regression workflows yielding structured predictive reports.

KEY PROJECTS

AI Email Agent (AI-AGENT-) | Python, LangChain, LLMs, FastAPI, Tailwind github.com/mohammedsuhail0/AI-AGENT-
CSS

- Engineered an autonomous AI assistant powered by LLMs and multi-step reasoning agents to parse incoming emails, extract key action items, and draft context-aware replies.
- Implemented asynchronous REST endpoints using FastAPI, accelerating email triage and reducing response workflow latency by ~70%.

ShieldSense — AI Security Threat Agent | Python, FastAPI, Security [github.com/mohammedsuhail0/PUNK-](https://github.com/mohammedsuhail0/PUNK-RECORDS-SPIH168-)
Analytics, ML **RECORDS-SPIH168-**

- Built an automated cybersecurity monitoring agent that analyzes server logs and user audit trails to detect suspicious anomalies in real time.

- Devised heuristic risk scoring and automated notification dispatch to enable rapid vulnerability containment.

Smart Attendance Management System | TypeScript, React, Node.js, SQL, Tailwind CSS [smart-attendance-ecru-nu.vercel.app](#)

- Architected a responsive attendance platform with role-based access control, live session synchronization, and automated CSV/PDF report generation.
- Optimized database query indexing and state caching, maintaining zero UI lag across batch student verifications.

Hyderabad House Rental Analytics | Python, Pandas, Scikit-Learn, [github.com/mohammedsuhail0/house-rental-analytics](#)
Power BI

- Extracted and structured multi-variable real estate data across Hyderabad; trained multivariate regression models to predict rent benchmarks.
- Designed interactive Power BI business dashboards visualizing price elasticity and geographic demand heatmaps.

Secure Online Examination Portal | JavaScript, HTML5, CSS3, Vercel [secure-online-exam-portal-zt.vercel.app](#)

- Created a secured test-taker client with anti-malpractice hooks, synchronized timers, and dynamic question scrambling.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

Expected 2028

[ISL Engineering College](#) • [Hyderabad, Telangana, India](#)

Relevant Coursework: Data Structures & Algorithms, Artificial Intelligence, Machine Learning, Database Management Systems (SQL), Web Technologies, Software Engineering, Object-Oriented Programming.

HACKATHONS, COMPETITIONS & CERTIFICATIONS

- **Certificate of Excellence (Data Science Specialization)** — Full Stack Academy Center of Excellence (Jan 2026).
- **AI-ML Virtual Internship Certificate (Grade O - Outstanding)** — Google for Developers, AICTE & EduSkills (Dec 2024).
- **Smart India Hackathon (SIH 2024)** — Competed on National Problem Statement 26133 with Team Punk Records.
- **SPEC's Industry Hack 2026** — 24-Hour National Hackathon at St. Peter's Engineering College solving industrial challenges.
- **HackForge 2.0** — 12-Hour Rapid Innovation Sprint at ISL Engineering College.
- **Eureka! National Entrepreneurship Challenge** — Pitching Participant, E-Cell IIT Bombay.
- **FSA Hackathon** — Web Application Prototype Sprint, Full Stack Academy.
